Pathways to Success for Every Student

Goal Team Monthly Report

Goal Team: Support for Academic Success

1. Team progress since the last report

The goal team met on May 31st.

Since our last meeting:

- An executive summary for the staff survey has been added to the CUC2C website.
- Urbana School District 116 distributed the student surveys and received close to 700 responses.
- We established subgroups to work on the following tasks during June, July and August:

Combine Champaign and Urbana student survey data and prepare an executive summary;

Add Spanish and French parent survey data and finalize an executive summary;

Identify common themes between parent, student and staff surveys and create a presentation for the next full SAS Goal Team meeting;

and examine the list of current SAS Goal Team members,

Identify gaps in Goal Team composition, identify potential new team members, reach out to gauge their interest, and meet with

interested new members to bring them up to speed before fall.

The subgroups will meet over the summer, and we will schedule our next SAS Goal Team for the week of September 11-15. We plan to hold a meet and greet for all SAS Goal Team members in August.

Dr. Ivory-Tatum will stay involved in subgroup work over the summer.

Molly Delaney has reached out to Dr. Owen and Dr. Zola regarding district representation after July 1st, but has not yet received a response.
