

Steve Adams

Scout Executive

Prairielands Council, Boy Scouts of America

- The BSA has offered the Exploring Career Education Program for almost 50 years to high school students
- We currently have Fire & EMS Protection Posts in operation for High School Students and in the past have had Law Enforcement, Culinary, and Health Care posts.
- BSA Nationally has recently provided the Exploring Club option for grades 6-8 and we are excited to partner with businesses to provide the program in additional subject groups:
Arts & Humanities, Aviation, Business, Communication, Engineering & Technology, Law & Government, Science, Skilled Trades, and Social Services.
- Our website Exploring.org provides hundreds of activity and life skill resources to design Exploring Club programs
- We offer access to many National and Regional programs and events through the BSA (i.e. National Law Enforcement Exploring Conference, July, 2018, Purdue University)
