

CU Cradle2Career

Pathways to Success for Every Student

**Workforce Readiness Team
6-8th Grade Working Group**

Vision

Every student entering high school will be motivated and prepared to pursue high school courses and extracurricular activities that lead to discovering and achieving their own career goals and life success.

Table comments

- Each = accountability
- Extracurricular activities assume the community is ready
- Curriculum needs to address what the students say they need
- Is it a vision for C2C or is it a vision that schools have?
- We still have to be respectful of the schools.
- There needs to be a continuum to high school; consistent with their wants and expectations

- Prepared to take high school courses
- Life fulfillment
- To enable every student entering high school to be motivated and prepared to pursue high school courses and extracurricular activities that lead to developing and achieving their plan for career and life success.

- Exploring, discovering and achieving
- There are barriers to extracurriculars

- Connect with students and families
- Every student with support of their families, schools, and communities relies upon them
